**Commissioner for Patents**

In re Application of: Dolmans et al., "PHOTODYNAMIC THERAPY"  
Application No.: 10/615,275  
Filed: 08 July 2003  
Attorney Docket No.: 00786-546001/MGH 2055

**NOTICE OF NON-RESPONSIVE AMENDMENT**

Applicant's response filed March 3, 2006 to the Requirement for Restriction/Election dated September 28, 2005, has been received and entered into the present application. Applicant's election of the invention of Group I, drawn to a method for administering photodynamic therapy to tumor tissue in a subject, is acknowledged.

It is noted, however, that Applicant has neglected to elect a single species of photosensitizing agent from claims 13-15 consonant with the requirement under 35 U.S.C. 121 that was set forth at pages 4-5 of the previous Office Action. A proper reply to this notice will reiterate the election of the group of invention and will set forth Applicant's election of the photosensitizing agent to be examined.

Since the above-mentioned response appears to be a bona fide attempt to reply, Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction, as well as a proper response to the previous Office Action, in order to avoid abandonment. Extensions of this time period under 37 C.F.R. 1.136(a) are available.

Inquiry concerning this communication or earlier communications from the Examiner should be directed to Leslie A. Royds, whose telephone number is (571)-272-6096. The Examiner can normally be reached Monday through Friday, 8:30 AM to 5:00 PM. If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Christopher Low, can be reached on (571)-272-0951. The fax phone number for the organization where this application or proceeding is assigned is (571)-273-8300.
